

Dermatology Teachers Exchange Group

May 20, 2022

The Dermatology Teachers Exchange Group will meet at the APD Annual Meeting September 23<sup>rd</sup> from 4:30-6:30PM at the Westin Chicago River North.

Abstract submission process will begin July 1 through August 1 with decisions for accepted abstracts being made by August 20. Submissions should be dermatology education-based research or scholarly activity, not clinical or basic science research. Abstracts are judged by a panel of educators and scored based on a rubric that include: Data driven / Topic appropriate / Interest to the Dermatology Teachers / Novel, not repeating recent abstract presentations / Special Theme incorporating, if a special theme is selected. At the present time, no special theme has been selected but will be posted once this is determined. Each abstract will be issued a score and ranked. Abstracts will be selected in part based on the time allotted. Abstract selection process is competitive, with around 30% selected for presentation. More details will be posted by July 1, including an email address to send submissions.

You may find previously [published abstracts by year](#) on the [APD's website](#).
